

Job title: Metal Finisher
Department: Assembly

The company:

STS is a small innovative company focussed on manufacturing specialist high-quality drum handling equipment. The company has 23 staff and is growing steadily, expanding each year. The company supplies equipment into a wide range of industries including Paint, Chemical, Pharmaceutical and Food. We manufacture in steel and stainless steel with lifting capacities ranging from 20kg to 2000kg. Much of our equipment utilises electric, hydraulic and pneumatic systems to offer powered functionality.

The role:

We are recruiting a Metal Finisher to work in our purpose built facility. The role involves carrying out various stainless steel finishing for parts used in the assembly of manual handling equipment. The role also involves the assembly of basic lifting equipment.

Main purpose of role:

1. Output a high level of finished metal components to a high standard.
2. Assemble basic trolleys and lifting equipment within the factory.
3. Work to provide customers with the highest quality handling equipment available.

Key tasks:

1. Carry out stainless metal finishing using in-house tools and machinery.
2. Assemble lifting equipment as per instructions given.

Key skills required:

1. High attention to detail.
2. Ability to perform consistently and to deadlines.

Qualifications required:

1. Qualifications in mechanical fields are desirable but not required.
